

**Mâwandônan Consulting Presents:
“Consulting and Engaging Aboriginal People”**

- ◆ **Is your organization having challenges making inroads with Aboriginal people and Aboriginal Organizations?**
- ◆ **Do you desire a better understanding about how to do business with Aboriginal Organizations?**
- ◆ **Do you want a clear and concise explanation of the Duty to Consult?**
- ◆ **Does your organization desire to have meaningful consultation and engagement with Aboriginal Groups but are not sure where to start?**
- ◆ **Would your organization see value in receiving feedback on these issues from an Aboriginal perspective?**
- ◆ **If you want to better consult with Aboriginal People or you are in a position that requires that you engage Aboriginal People (I.E. Stakeholder Relations, Community Relations, Surface Land, Aboriginal Relations) and have asked these questions, then this workshop is for you.**

Since 1996 Mâwandônan Consulting has helped many organizations deal with similar questions. Using a combination of information transference and interactive dialogue, participants will be taken through the many complicated aspects of this process. This workshop is designed to provide practical solutions to the questions raised above; solutions that are based on how Aboriginal people would provide them.
